Software engineer in test with strong background in automation and programming. Experience working with Java, Python, Jenkins, and AWS to develop end-to-end tests and validate data.

EXPERIENCE

Genesys – Remote

06/2022 – present

Software Engineer in Test

- Developed automation test jobs and pipelines using Java and Jenkins
- Ensured quality assurance and stability of weekly production deployments
- Designed test plans and cases with project managers, developers, and other test engineers
- Validated features and microservices through automation and manual testing
- Triaged failed regression tests executions and reported defects/bugs

Blueprint Test Prep – Remote

07/2021 – 01/2022

Software Engineer

- Implemented and discussed software features and technical requirements with developers, stakeholders, project manager, and interface designer
- Developed backend microservices and REST API endpoints using Go and AWS
- Tested contributed code through unit and integration tests
- Deployed code on CI/CD pipelines and validated new features in structured testing environments

SKILLS

Languages

- Java, Python, Go (Golang), C++, GraphQL

Technologies

- Amazon Web Services, Jenkins, GitLab CI/CD, Sumo Logic, PagerDuty, Swagger, Postman

EDUCATION

Portland State University – 2021

Computer Science – Bachelor of Science

GPA: 3.69, *cum laude*
