## EXPERIENCE

---

**Genesys** – Remote

06/2022 – present

### *Software Engineer in Test*

- Ensured quality assurance of team project by testing for data validation and API endpoints
- Designed test plans and cases with project managers, developers, and other test engineers
- Developed automation test jobs in deployment pipelines using Java and Jenkins
- Validated features and microservices through automation and manual testing
- Triaged failed regression tests executions and reported defects/bugs

**Blueprint Test Prep** – Remote

07/2021 – 01/2022

### *Software Engineer*

- Implemented and discussed software features and technical requirements with developers, stakeholders, project manager, and interface designer
- Developed backend microservices and REST API endpoints using Go and AWS
- Tested contributed code through unit and integration tests
- Deployed code on CI/CD pipelines and validated new features in structured testing environments

## EDUCATION

---
