Software engineer in test with strong background in automation and programming. Experience working with Java, Python, Jenkins, TestNG, and AWS to develop end-to-end tests, validate data, and build pipelines.

EXPERIENCE

Genesys – Remote   06/2022 – present
Software Engineer in Test
- Developed automation test jobs and pipelines using Java and Jenkins
- Ensured quality assurance and stability of weekly production deployments
- Designed test plans and cases with project managers, developers, and other test engineers
- Validated features and microservices through automation and manual testing
- Triaged failed regression tests executions and reported defects/bugs

Blueprint Test Prep – Remote   07/2021 – 01/2022
Software Engineer
- Implemented and discussed software features and technical requirements with developers, stakeholders, project manager, and interface designer
- Developed backend microservices and REST API endpoints using Go and AWS
- Tested contributed code through unit and integration tests
- Deployed code on CI/CD pipelines and validated new features in structured testing environments

SKILLS

Languages
- Java, Python, Go (Golang), C++, GraphQL

Technologies
- Amazon Web Services, Jenkins, GitLab CI/CD, Sumo Logic, PagerDuty, Swagger, Postman, TestNG

EDUCATION

Portland State University – 2021
Computer Science – Bachelor of Science
GPA: 3.69, *cum laude*
