

Isaiah Shikina

Software Engineer in Test

Houston, Texas / ishikina@outlook.com / (503) - 442 - 9191

<https://ishikina.github.io/devportfolio/>

Experienced Software Engineer in Test with expertise in automating data pipelines using Java, TestNG and Jenkins. Skilled in executing end-to-end testing, resolving data inaccuracies, and ensuring production readiness.

Experience

Genesys Cloud Services – Remote

Software Engineer in Test

06/2022 – Present

- Developed and automated data jobs and pipelines using Java and Jenkins, improving workflow efficiency.
- Conducted production readiness testing and approved software builds for deployment, ensuring seamless releases.
- Executed end-to-end and regression testing, ensuring data accuracy in ETL pipelines.
- Identified and reported data inaccuracies, clearly documenting the replication process.

Blueprint Test Prep – Remote

Software Engineer

07/2021 – 01/2022

- Developed backend microservices and REST API endpoints using Go and AWS.
- Deployed code on CI/CD pipelines and validated new features.

Education

Portland State University – 2021

Computer Science – Bachelor of Science

GPA: 3.69, Cum Laude

Skills

Languages: Java, Python, Go, C++, GraphQL

Technologies: TestNG, AWS (S3, DynamoDB, EMR), Jenkins, Postman, Apache Airflow, New Relic, Sumo Logic
